

SUB-ACUTE CARE CENTER

Sub-Acute

of Warsaw Meadows

In addition to long-term care, memory care and psychological care, Warsaw Meadows provides Sub-Acute Care. This special unit is for patients who no longer require hospital care but need medically complex skilled nursing or rehabilitative care that exceeds what can be supplied at home or in an outpatient setting.

In our Sub-Acute Care Unit, we treat patients with complicated health problems and those who require specific pre- or post-acute rehabilitation therapy. We also treat patients recovering from surgery or from joint replacement procedures.

RESIDENTS *first!*
